6 GUIDELINES FOR SUBMITTING DOCUMENTS 29

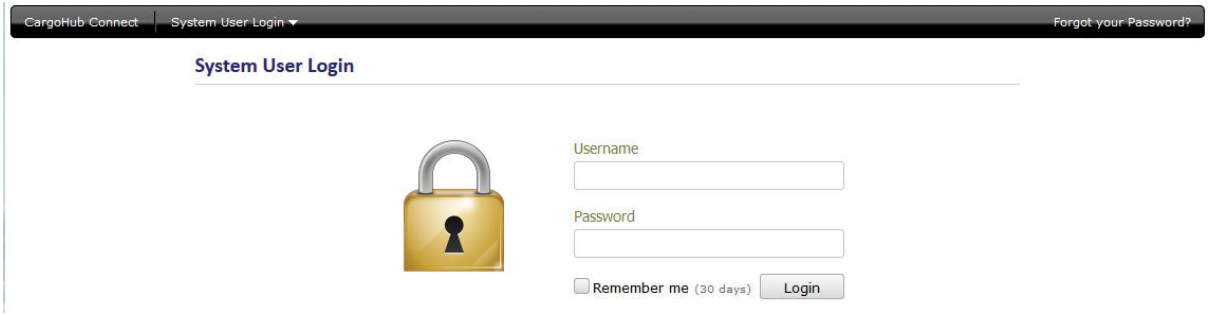

1. General

1.1 How to login

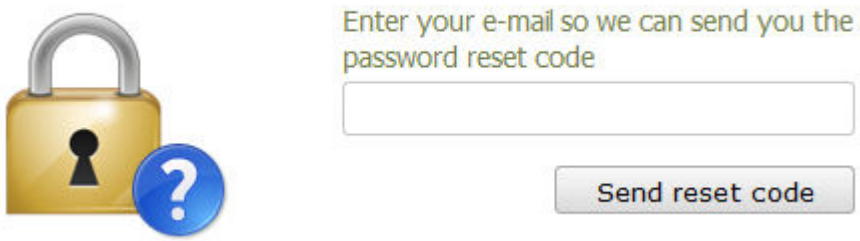

Login via www.cargohub.aero or to your integrated Cargo Claims portal.

1.2 Password recovery

If you don't know your password anymore or lost it, use this link or click on *Forgot your password* on the right hand side of the navigation bar of the login page.

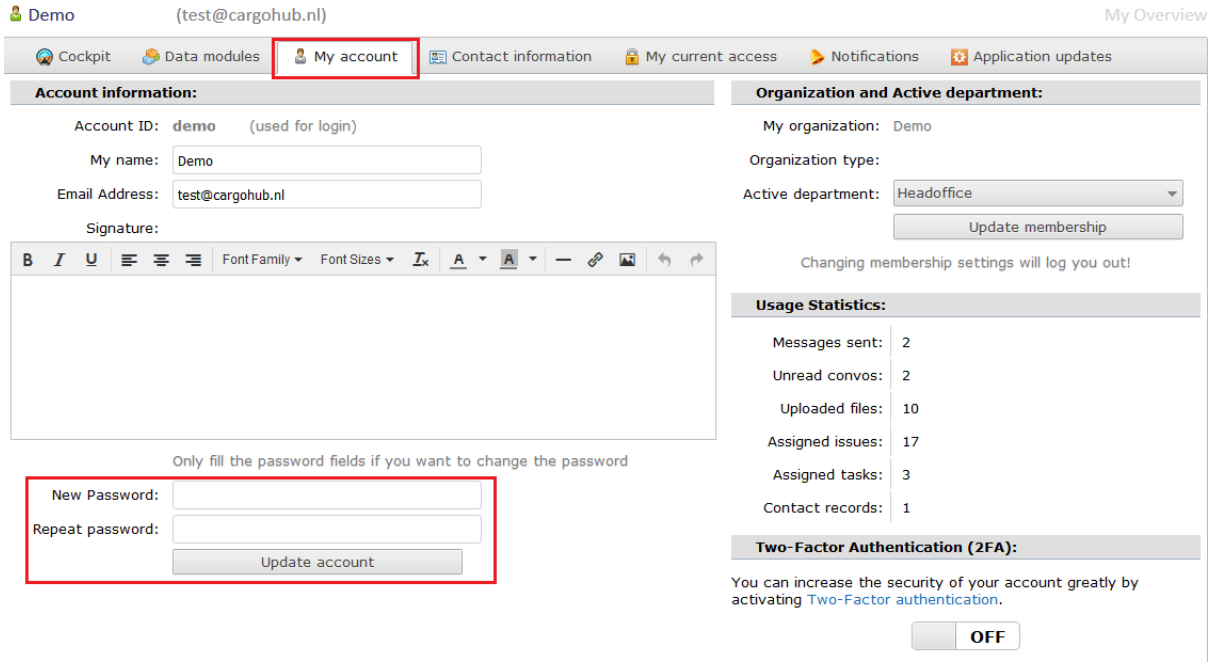

Please provide your email address, used to create the account.

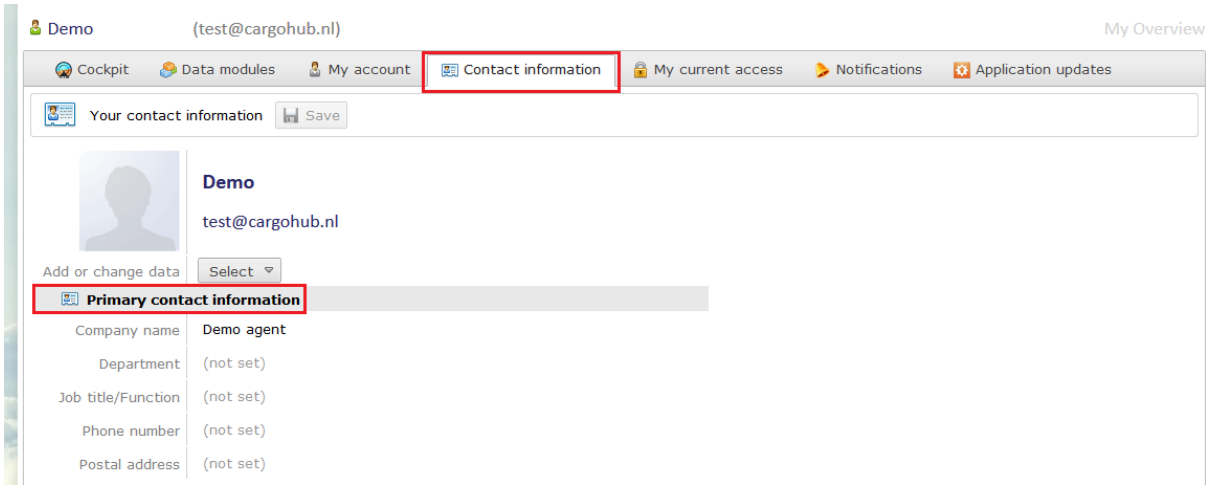

1.3 Change Password

Press the *Cockpit* or *Dashboard* button (top left button on your screen) and select the *My account* tab. Here you can view your account details, add or update your signature and change your password. Save your changes, by clicking the *Update account* button.

Contact Information

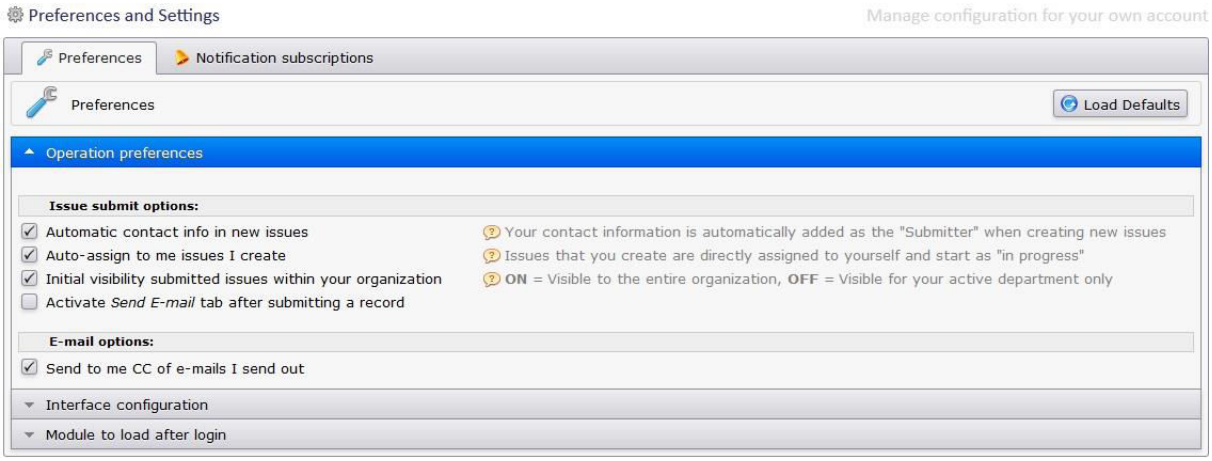

The next tab, *Contact information*, you can add primary contact information to your account.

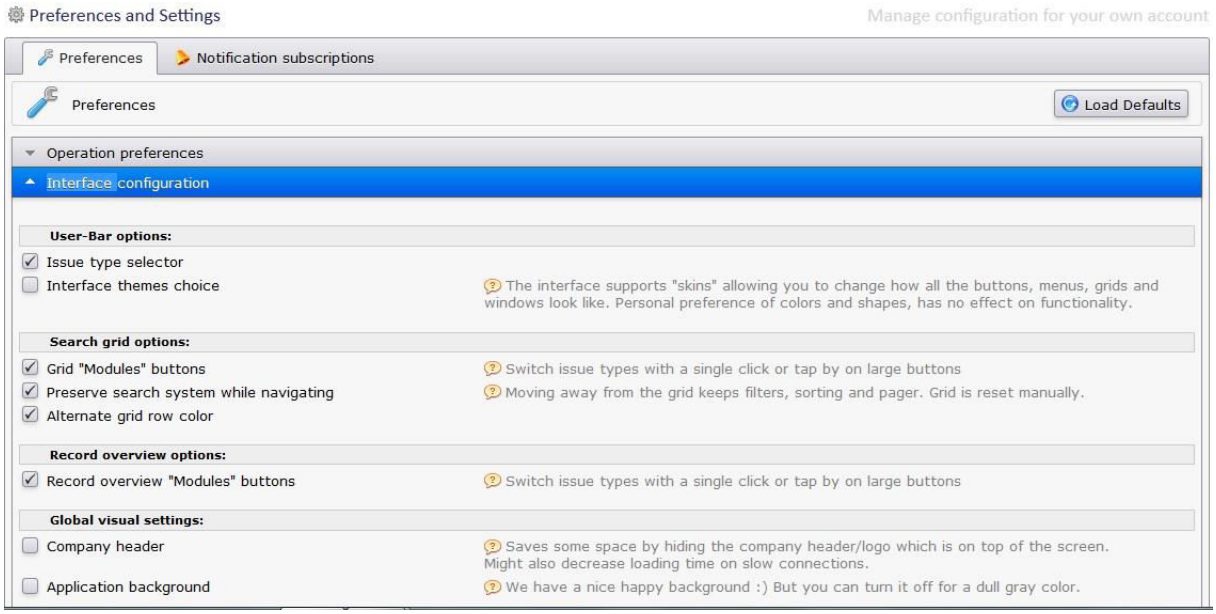

1.4 Preference Settings

Select the Cogwheel button on the top of your screen.
Set the configuration of your account here. Click on one of the grey bars to extract/retract the dropdown menu.

The first menu is *Operational Preferences*. Here you can select *Issue Submit, Email and Auto-assign* options.

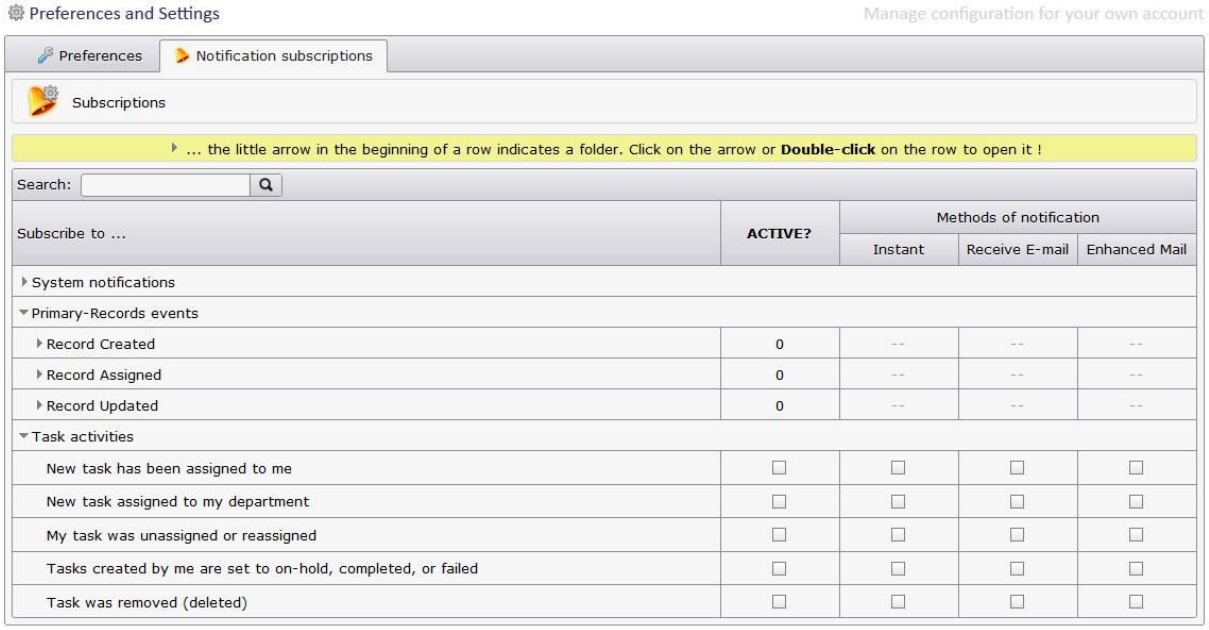

In the *Interface Configuration* menu, you can set portal settings like *Preserve view while navigating'*, *overview* & in-form Module access.
Visual module access can be switched on/off here. You can both have a line of buttons in your record overview and have a dropdown menu from the black navigation bar. This increases record overview as well.

1.5 Defining Notification Subscriptions

In *Notification subscriptions*, you can choose to receive notifications about primary record events, and task activities by selecting the box on the subject line. You can receive notifications in your account inbox, as well as via your personal email address. Quick ref.: Settings

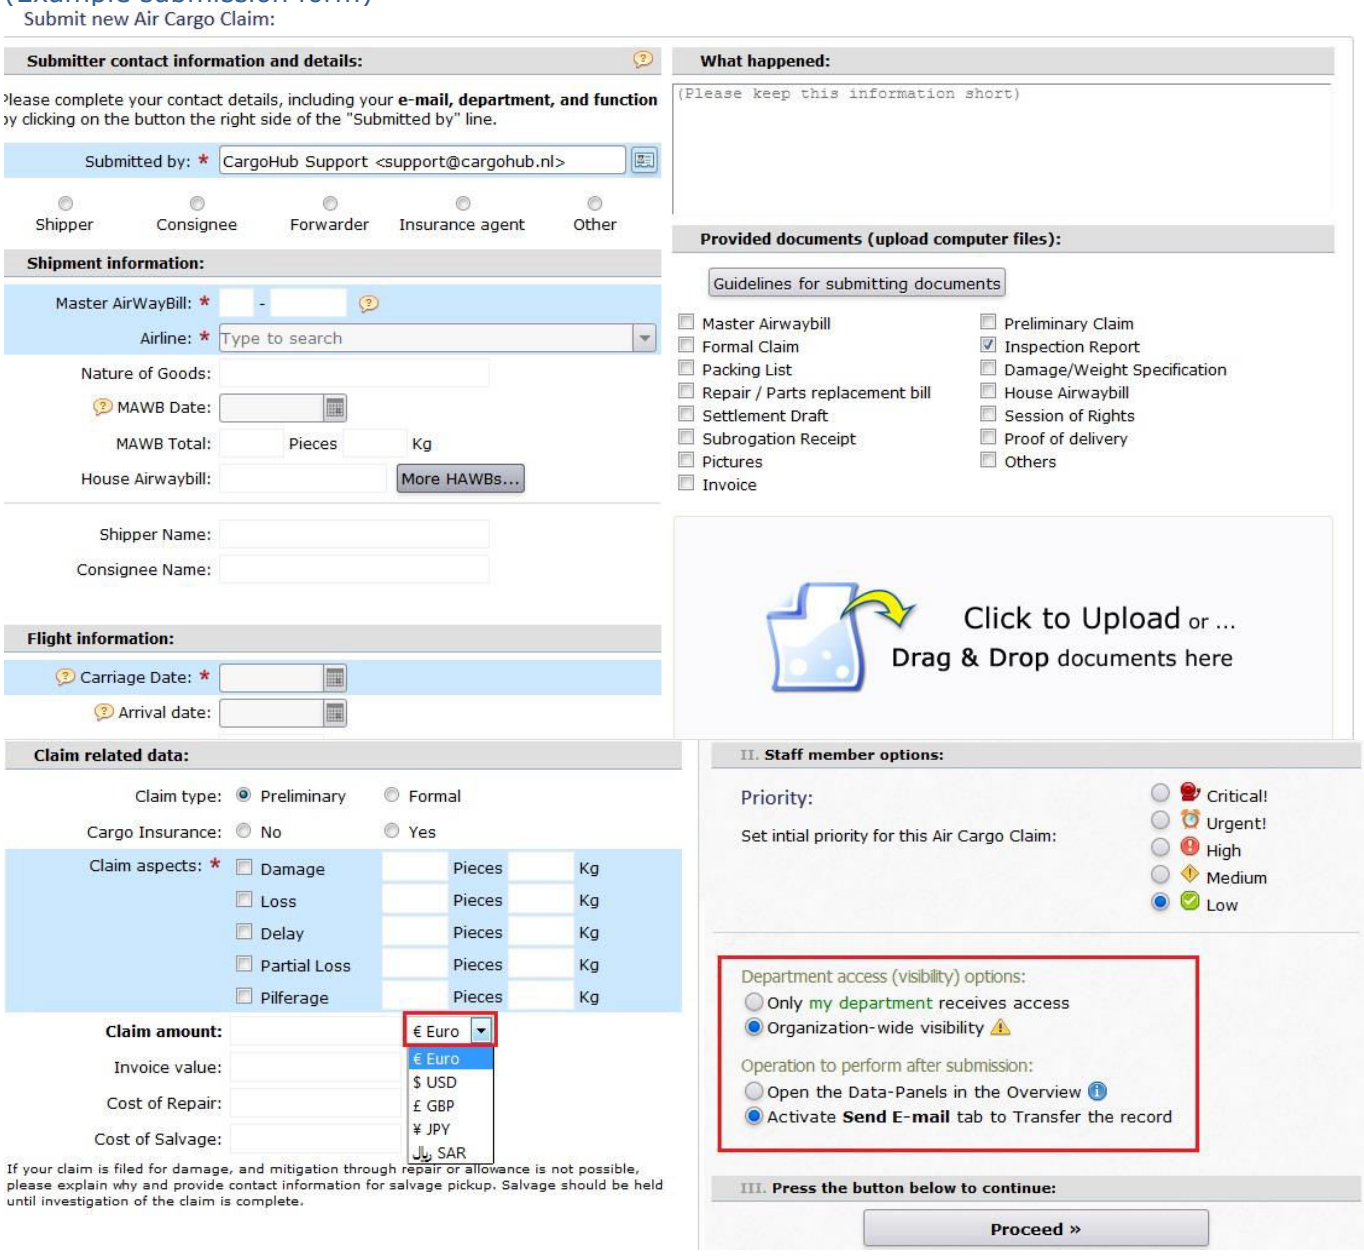

2. Submit and Process

2.1 How to submit a record

Submission form

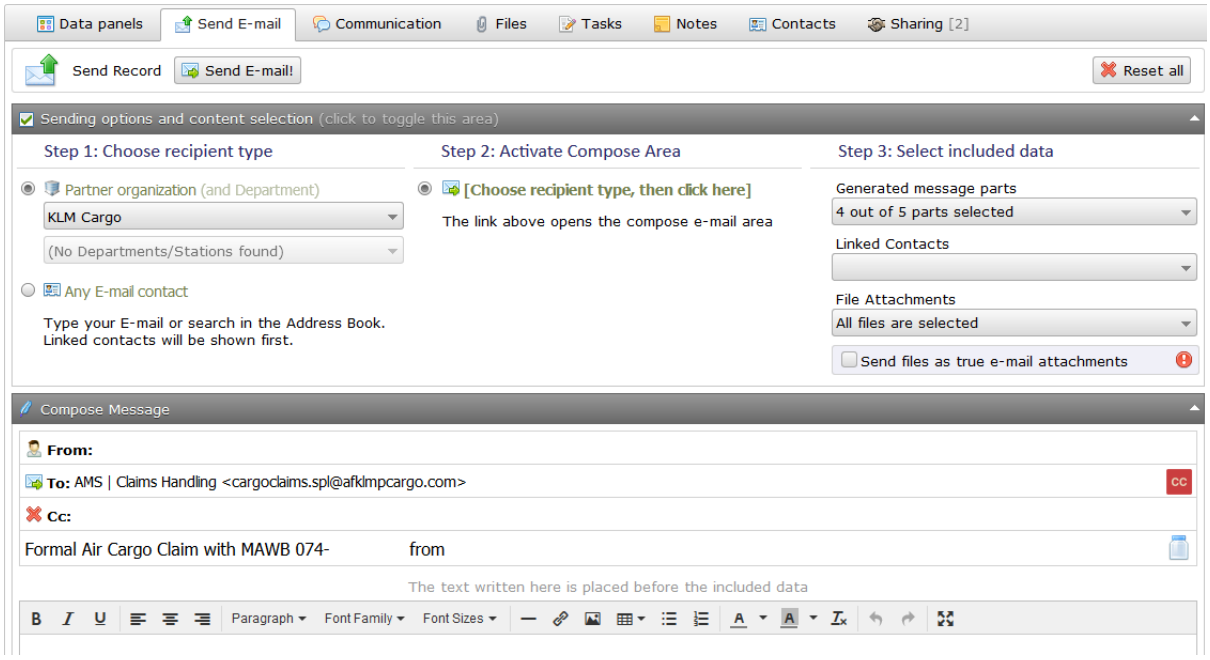

The *Plus* button on the top of your screen opens a new submission form directly.
Start by filling in the shipment and flight information, and use the in-form HAWB button to add additional HAWB's if required.
In the *Claim related data* panel, enter claim type, aspects, amounts and currency values of the shipment.
Add additional information about your claim in the *What happened* text box, and upload documents and photos via the Drag & Drop box below.
To complete your submission form, select the priority of the claim and select visibility prior to submitting and sending it out.

(Example submission form)

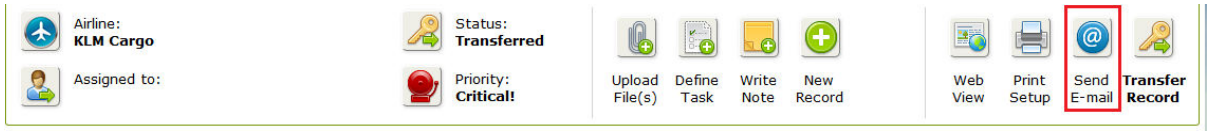

2.2 Compose and Send a Message

(Example: compose email)

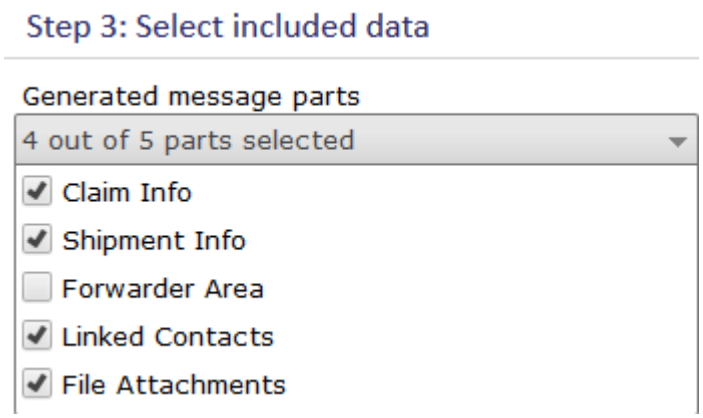

Step 1 In a record overview, press *Send E-mail.* This opens the address and text box below.

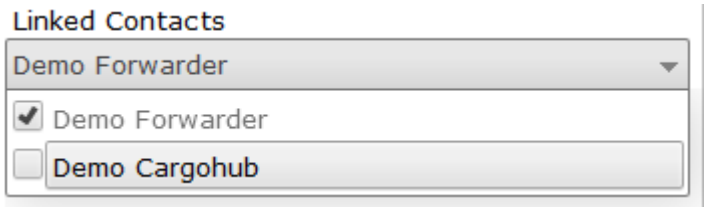

Step 2 If no partner/department is selected in Step 1, select *Any E-mail contact* to send to an alternate address.

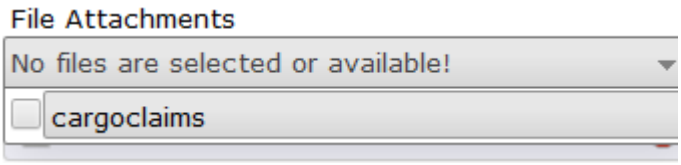

In step 3, select *Generated message parts;* which data you want to share.
Note: The Remarks section is part of an information panel, and will be shared if selected.

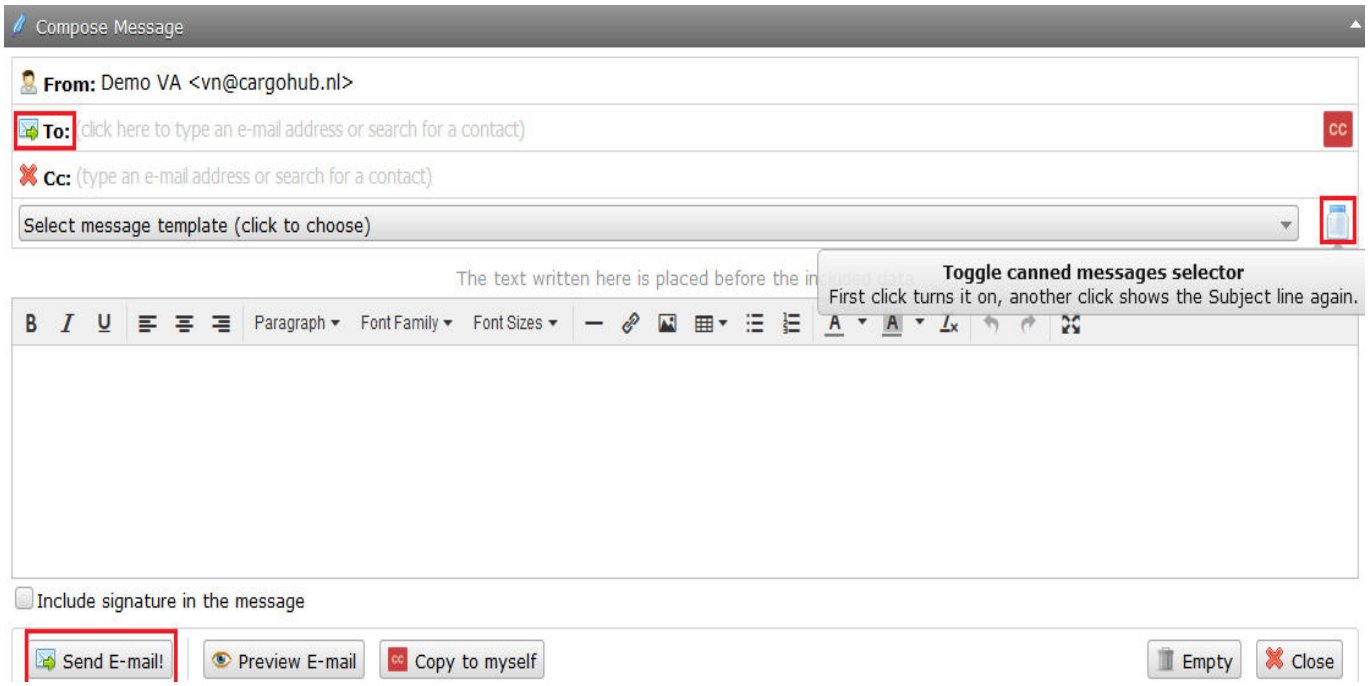

Step 3 Choose recipient(s) in *Linked contacts*, from the dropdown menu below.

Choose uploaded files of the record, choose the ones you would like to share, from the dropdown menu under *File attachments*.

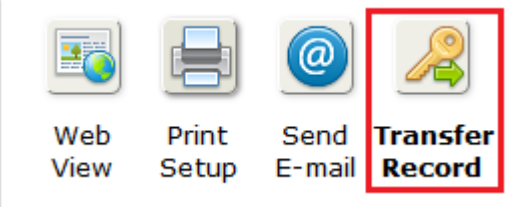

Enter an email address and type your message in the text box.
Click the *Can* on the right hand side, to access predefined *Canned Messages* in the drop down menu below.
Select the check-box to include your signature and press the *Copy to myself* button and when finished press *Send E-mail*.

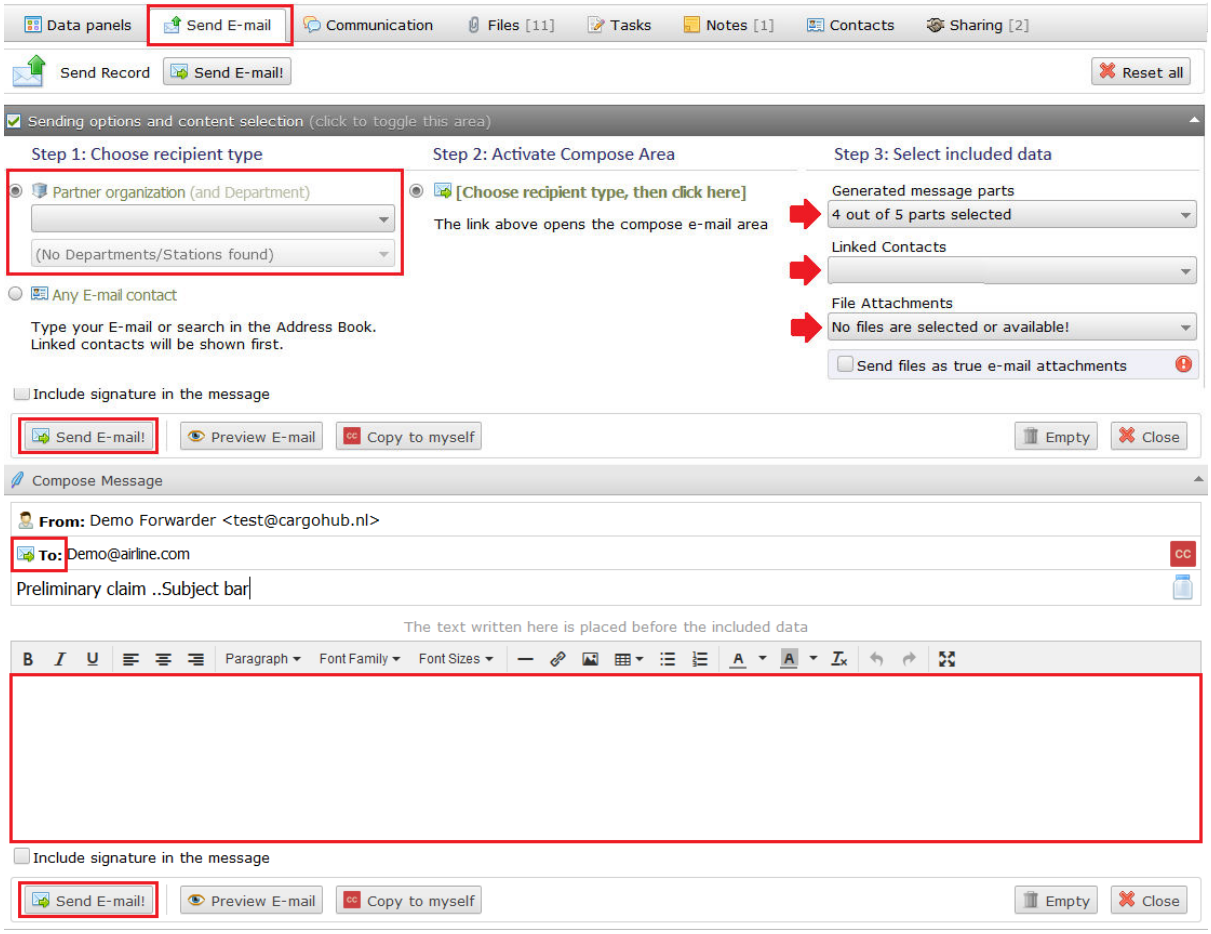

2.3 Transfer Record to Partner Organization

Transfer Record

To re-send or forward a record, click on the *Transfer record* button in the right panel, which opens the *Send Email* tab below.

Choose a partner organization and department of the recipient.
Follow the steps for attachments and sending accordingly.

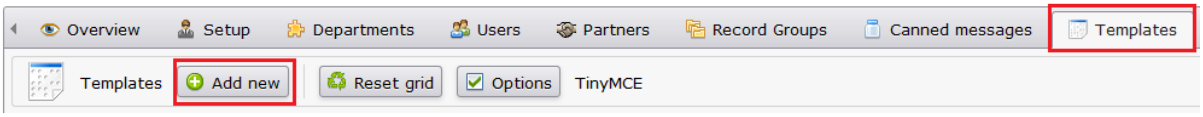

2.4 Create and Select Pre-defined Tasks.

A) How do I create a Task

Go to *Organization* on the top of your screen. In the grey bar, go to the *Templates* tab and select *Add new*.

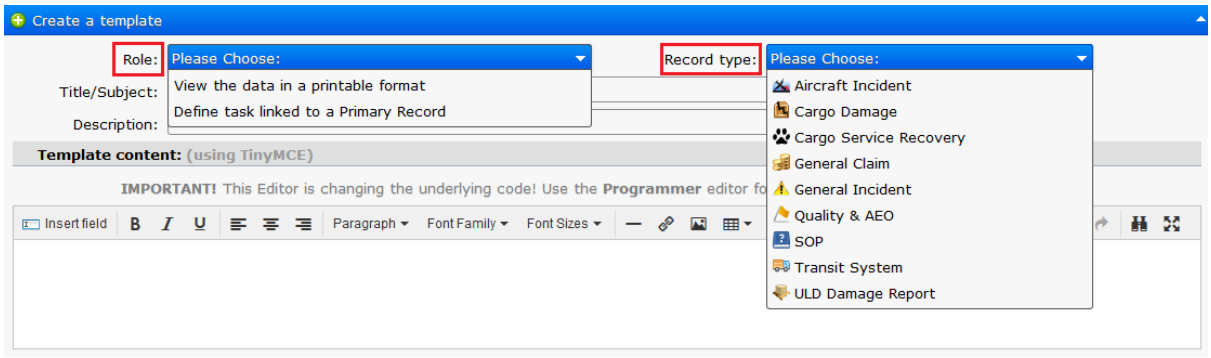

(Examples: Add new Template)

There are two different Task Templates you can create:

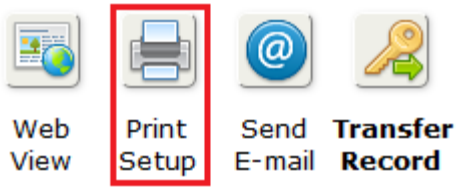

1) A printable format; A screen appears where you can add template context.
2) A Tasking template for interdepartmental assignments.

Choose the Role of the template in the left dropdown menu accordingly. In the right menu, choose for which Issue type it will be linked.

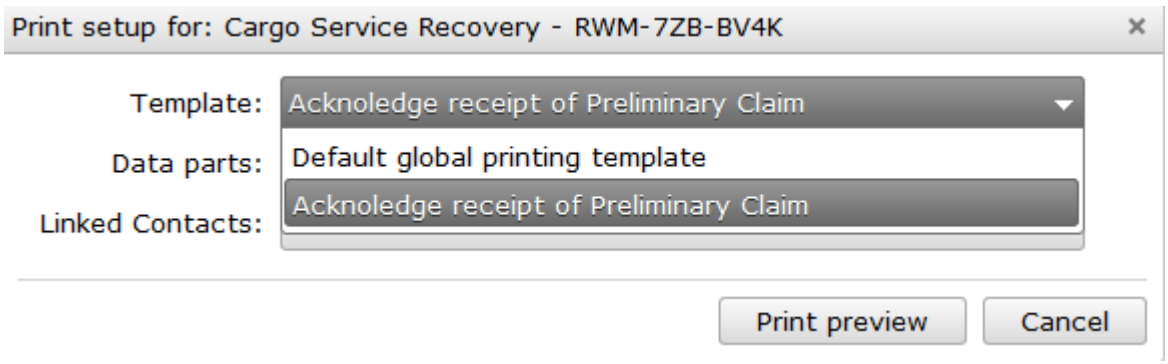

B) How do I select a Printable Task?

Open a record and select the *Print Setup* button in the right panel.

A pop-up screen appears and you can select the required template.

(Example submission form)

To:
Attn:

Schiphol,

Our ref:
Your ref:

Subject: Preliminary Claim

Dear Sir, Madam,

By means of this letter, we would like to confirm receipt of your Preliminary Claim.
An internal investigation will be started.

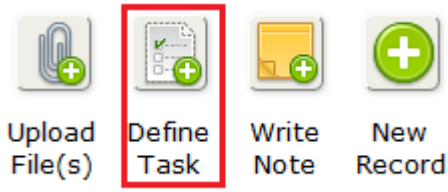

If you have any questions in regard to your claim, please do not hesitate to contact our claim deparftment.

Kind regards,

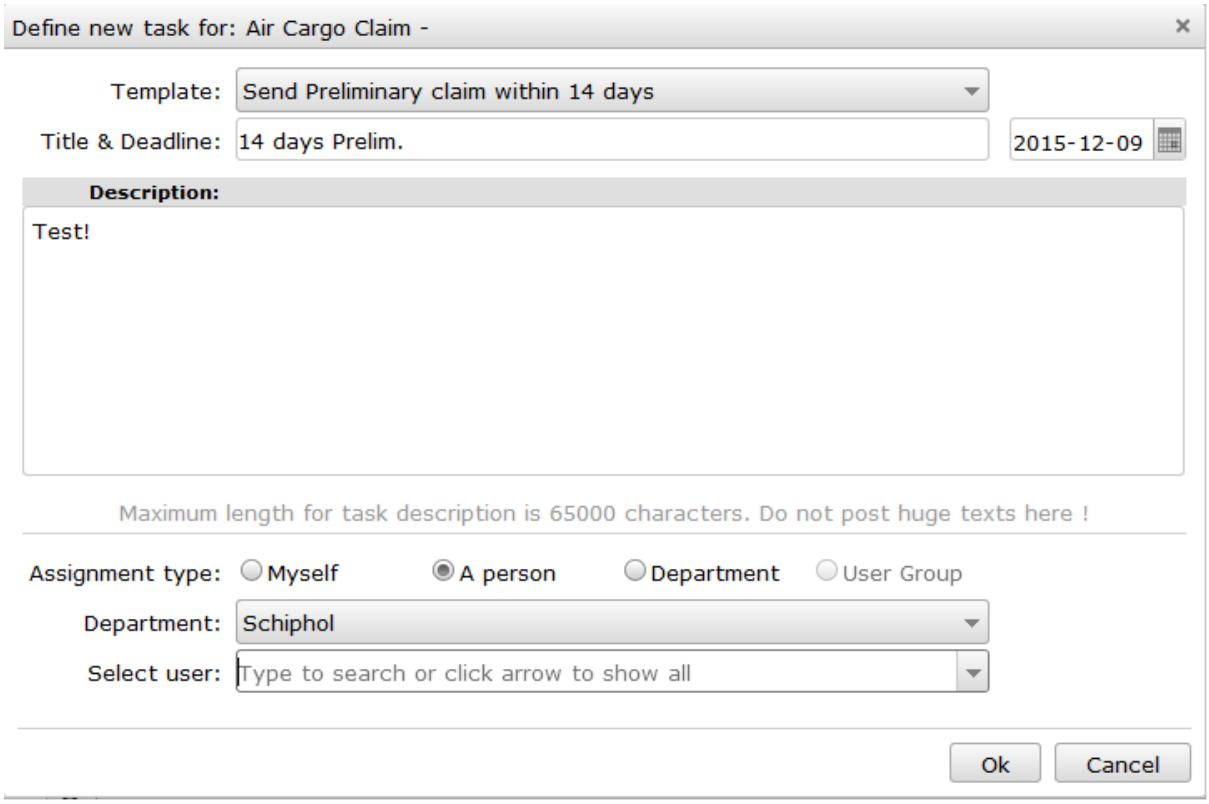

Customer Service Desk

C) How to assign a as Task

Open a record and click on the *Define Task* button.

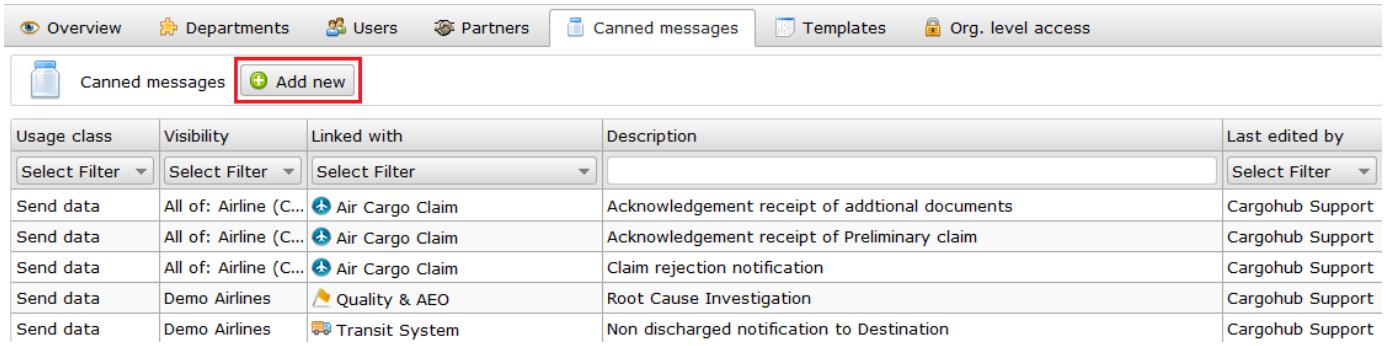

Select a pre-defined template here and/or give a contextual description. Next, assign the task to a department, person or yourself below.

2.5 How to create a Canned message

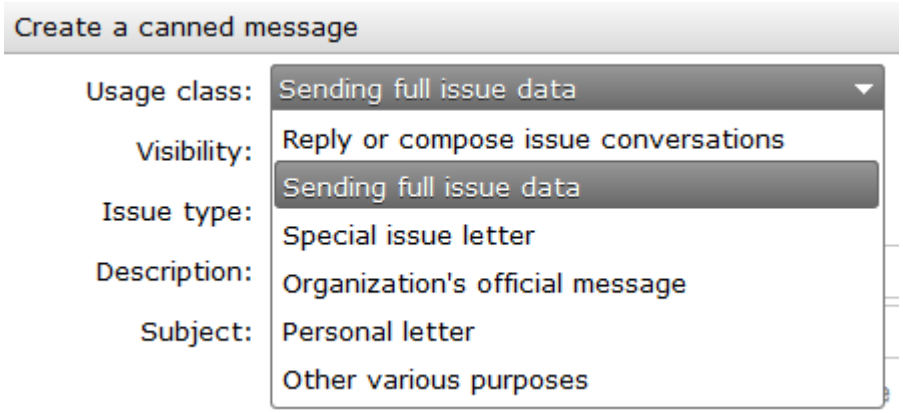

Via the *Organization* button on the top of your screen, go to the *Canned Messages* tab.

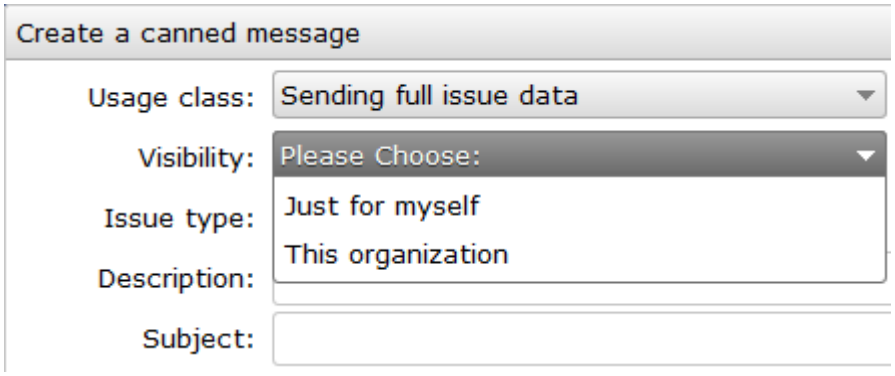

Usage class	Visibility	Linked with	Description	Last edited by
Select Filter	Select Filter	Select Filter		Select Filter
Send data	All of: Airline (C...	Air Cargo Claim	Acknowledgement receipt of addtional documents	Cargohub Support
Send data	All of: Airline (C...	Air Cargo Claim	Acknowledgement receipt of Preliminary claim	Cargohub Support
Send data	All of: Airline (C...	Air Cargo Claim	Claim rejection notification	Cargohub Support
Send data	Demo Airlines	Quality & AEO	Root Cause Investigation	Cargohub Support
Send data	Demo Airlines	Transit System	Non discharged notification to Destination	Cargohub Support

A screen will appear where you fill in the different information.

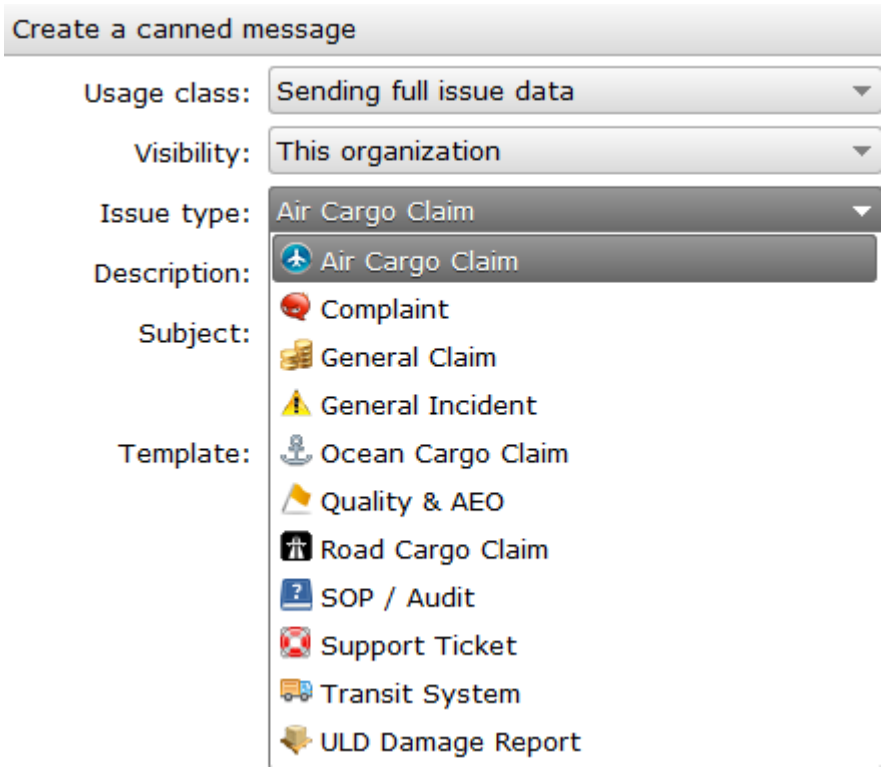

1) In *Usage class*, generally used for outgoing messages, choose Sending full issue data.

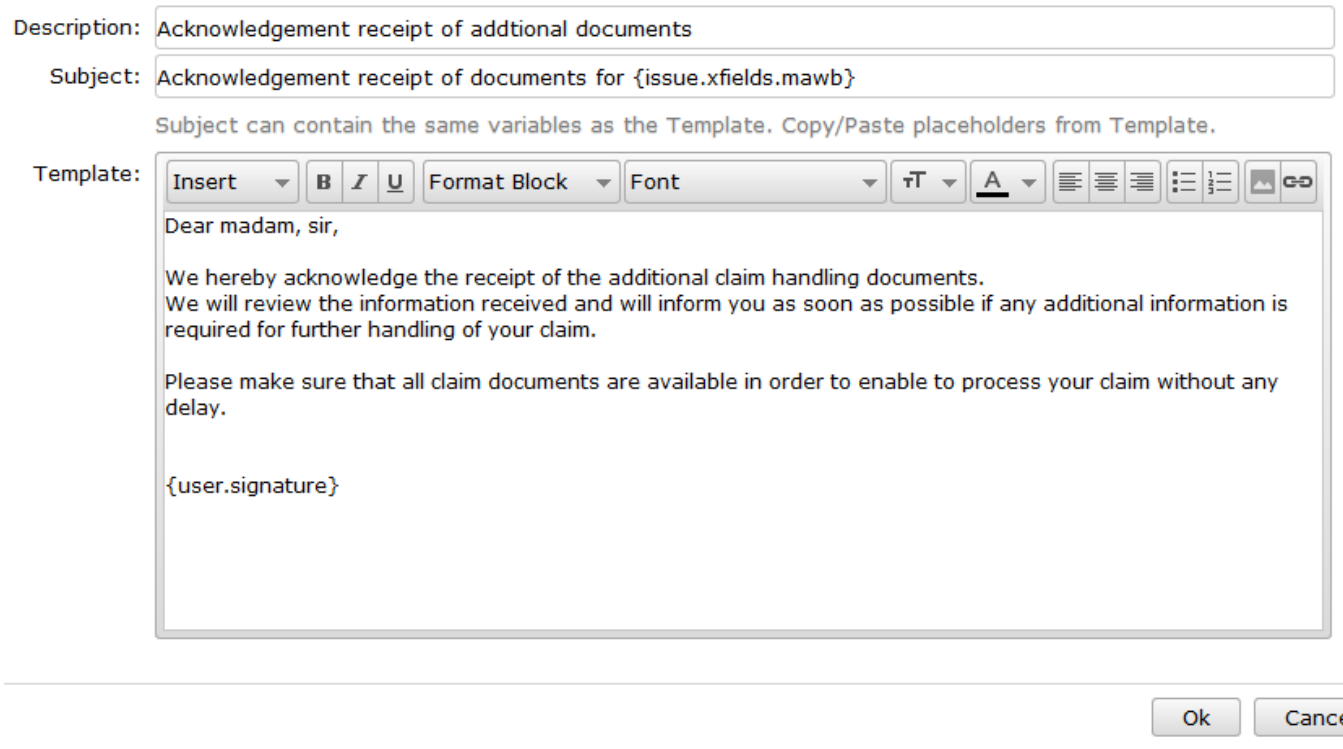

2) Set visibility to yourself or organization wide usage.

3) Select which Issue type to link the Canned Message to.

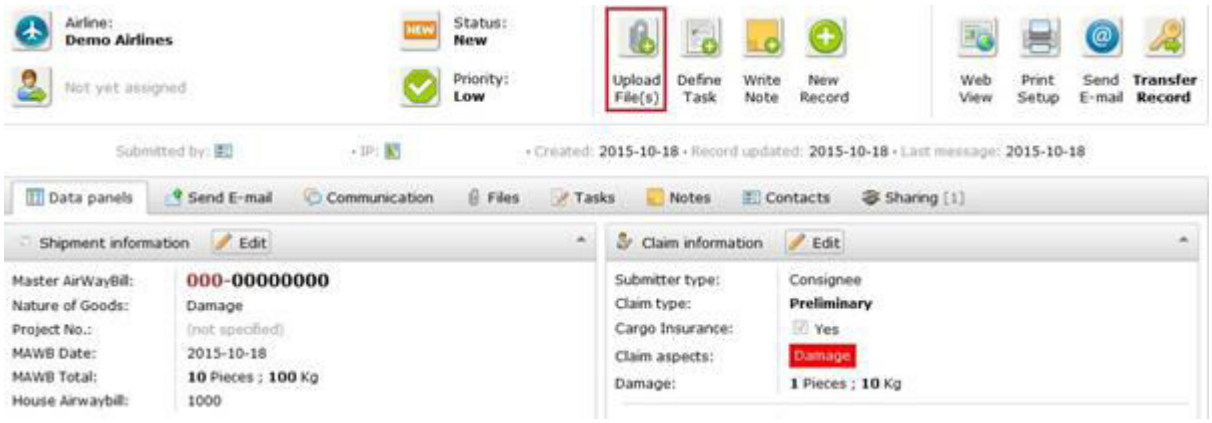

4) Add a description and subject for the canned message. Use Insert links for short references.
Click *Ok* to save.

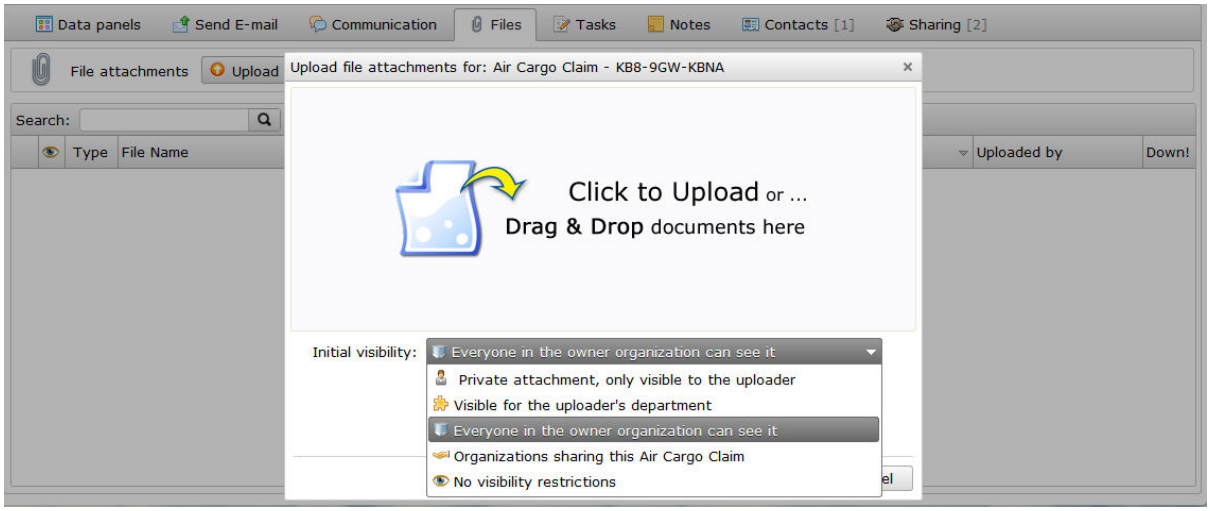

Upload Files

Click on the *Upload File(s)* button to upload new documents.

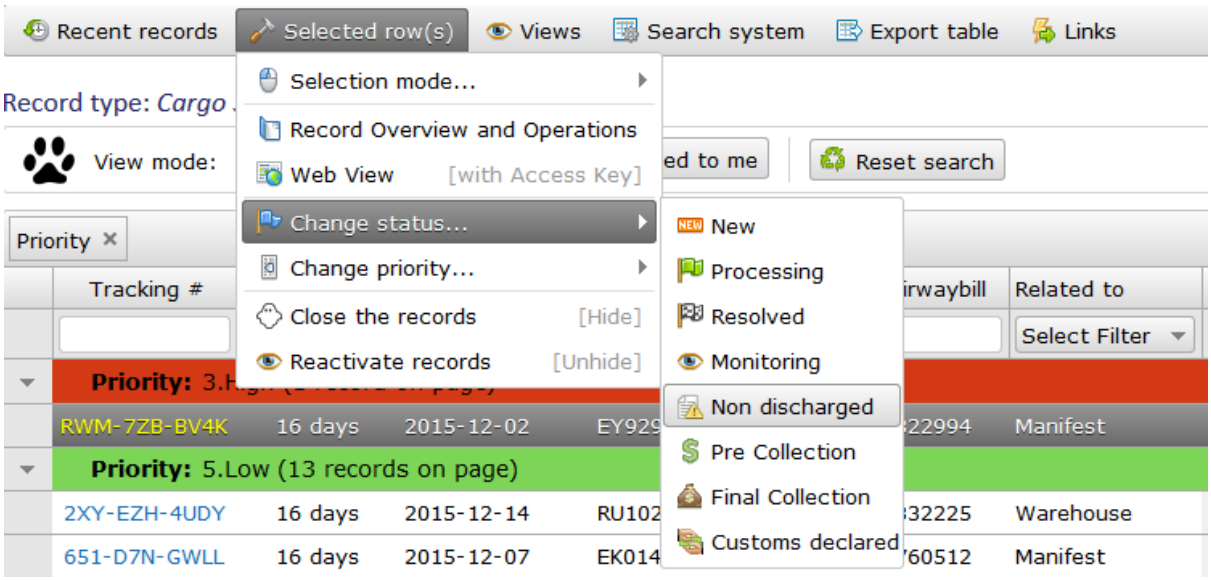

This opens the *File* tab, and simultaneously a pop-up screen will appear. Click *Ok* when finished.

2.6 How to update files

Change Status and Priority

Select a file in your grid overview and hover over *Selected rows*. Here you can close a file, or update the file status or priority via the dropdown menu.

+ In file update tools

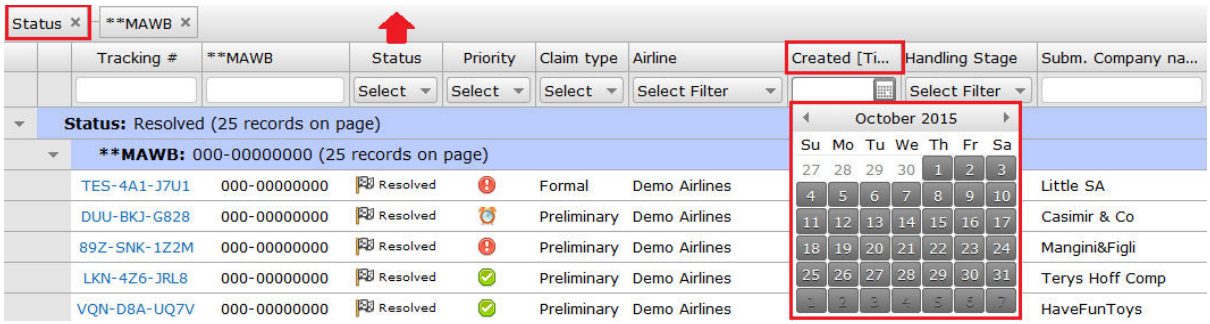

Open a record, and an overview of the claim appears. Hover over the buttons in the first panel. Here you can:
1) Switch the claim file to another airline.
2) Change priority and status.
3) Assign a person or contact.

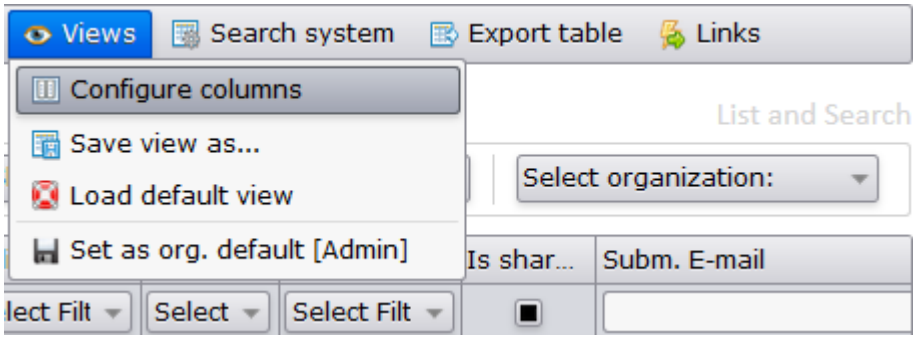

3. Overview and Analysis

3.1 How do I customize the grid overview?

1) Drag and drop a column-header into the big grey bar above group subjects and/or select a period of time, depending on the columns that have been added to your overview.

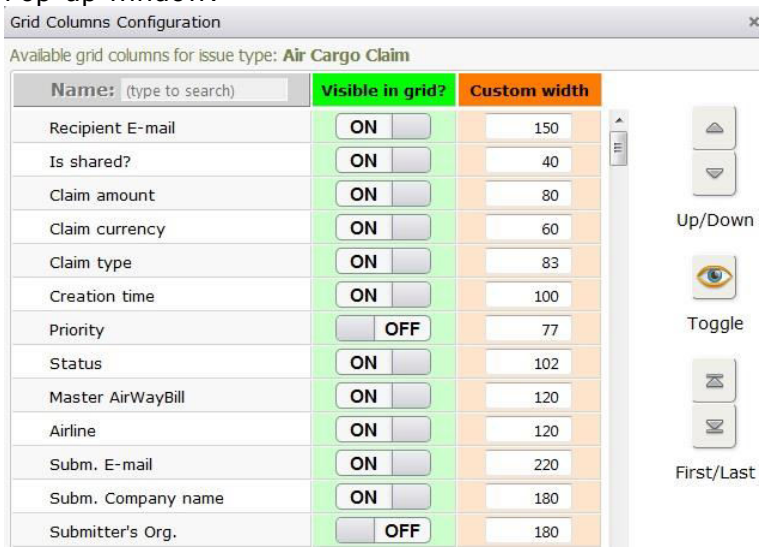

2) Hover over *Views* to add/remove and configure columns.

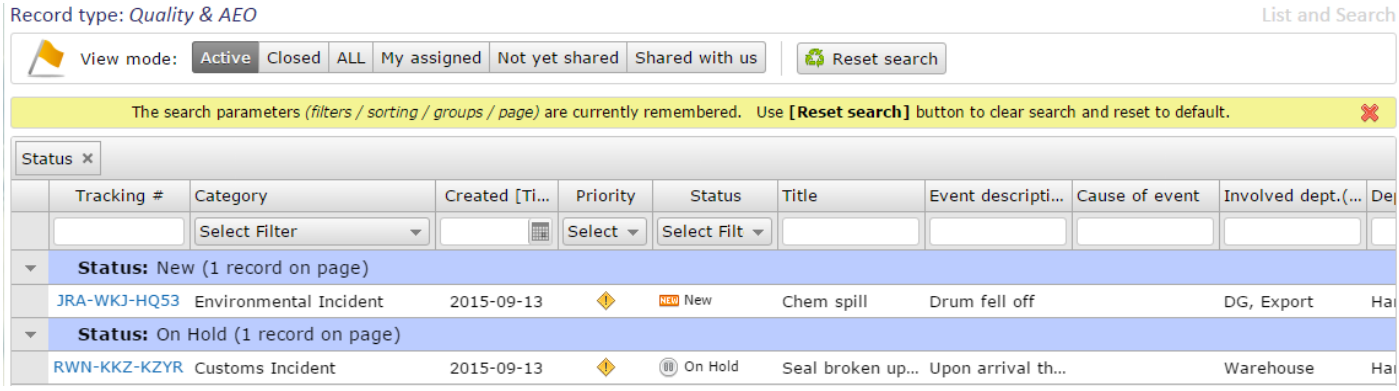

3) The pop-up window shows the grid columns that can be made visible or hidden. It is also possible to change the column widths. Use the arrows on the right side of the window to arrange the columns in the desired order.

Pop-up window:

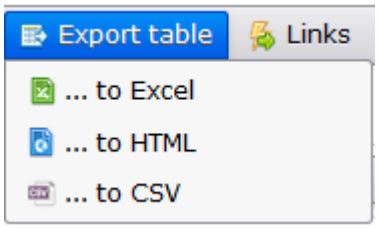

3.2 How do I set default grouping?

You can filter claims in the grid overview by for example priority. Hover over *Search system*, then *Default grouping* and click *By priority*. Default could already be active, in that case, click *Disable grouping* to reset your view.

3.3 How do export data for analysis?

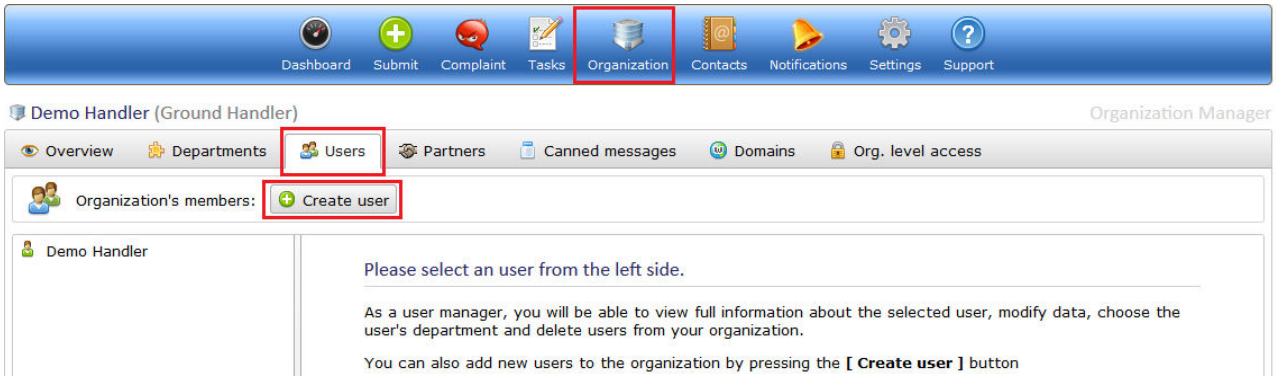

Most important is to filter and set the columns in your grid overview at the right places. Then hover your cursor over the 'Export table' option in the gray navigation bar. The export table dropdown list will appear, where you can choose in which file format you want the table to export. Just click on the desired file format and the download of an offline copy of the claim table will automatically start.

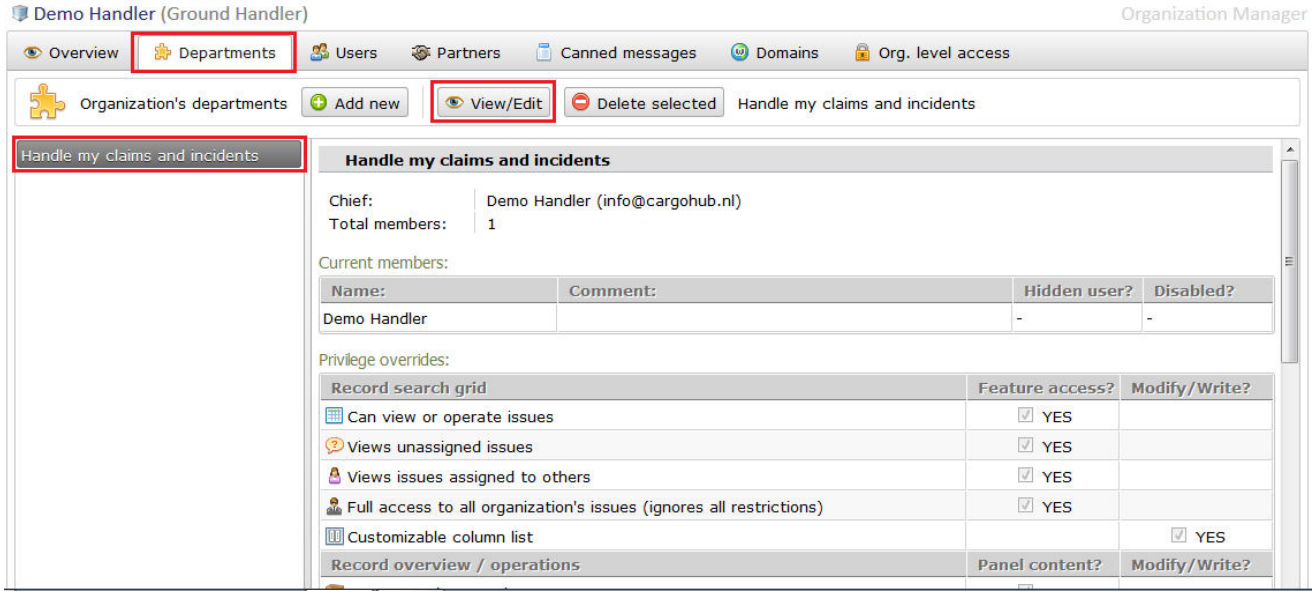

The offline copy will be an **exact copy** of the claim overview on the Cargo Claims portal. This means that the exported table will be the exact same size and contain the exact same information and column width as the table in the application.

4. How to Create a New User Account

(Example: Create New User Account)

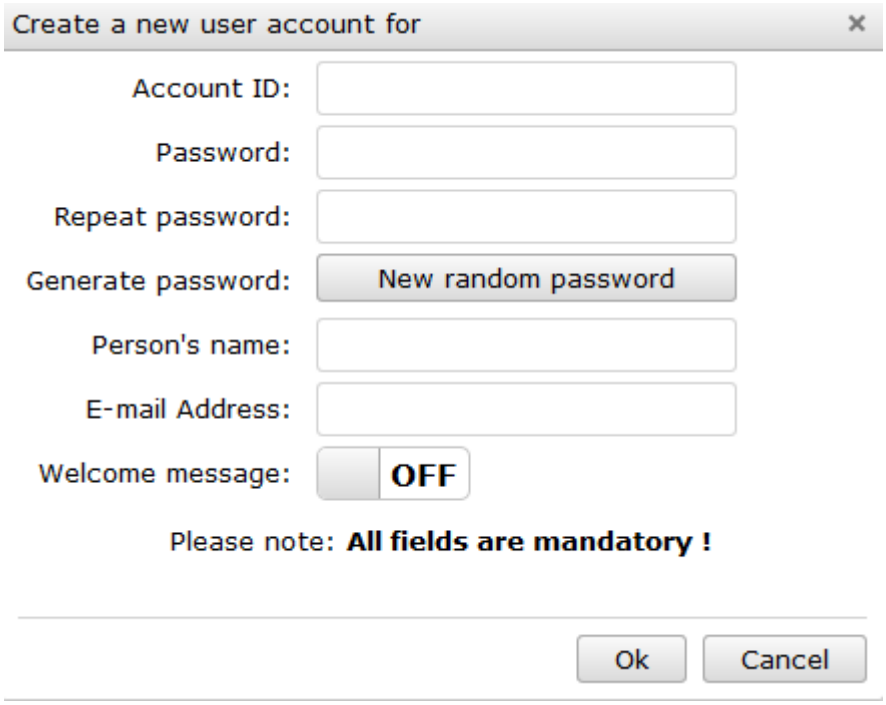

(Example: Connect New User to Department)

4.1 Create a New User

Create a new user by going to *Organization* on the top of your screen.
Select the *Users* tab in the grey information bar and click the *Create user* button.

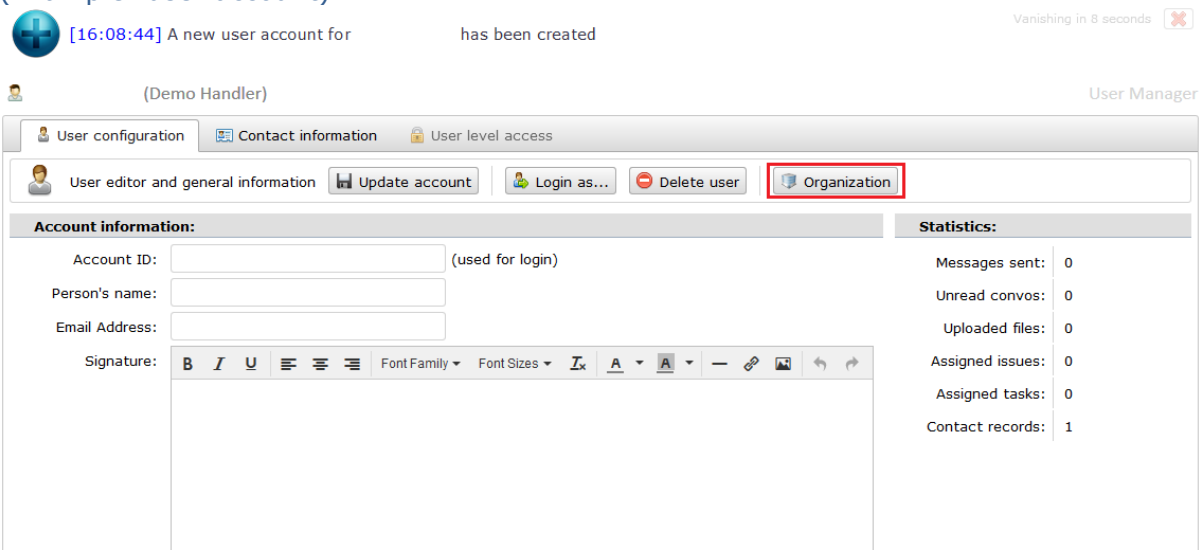

A pop-up screen will appear:

1) Enter an Account ID (Login credential): Name, number or email address.
2) Press the *New password* button next, which fills in a random password automatically.
3) Fill in the person's name.
4) E-mail address of the new user.
5) Click *Ok* when finished.

The next screen is the account of the new user. Click on the *Organization* button as shown below to go to the next step in completing the user account setup.

(Example: user account)

4.2 Connect New User to Department

Connect the new user to the Department by going to the *Department* tab and select a department and click *View/Edit*.

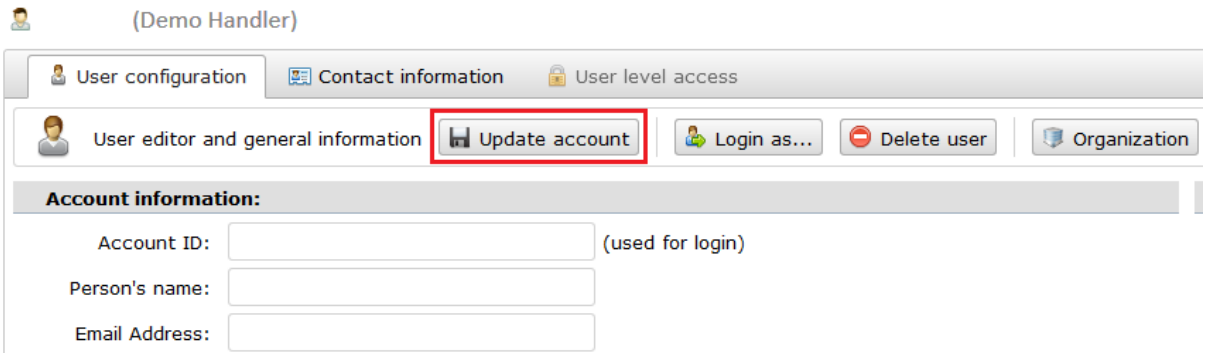

Go to the *Members* tab and click on the *Connect new* button.

A pop-up screen will appear and choose the user from the drop down menu. Click *Ok* when finished.

Select the new user from the navigation bar and click *Manage*.
In this screen, the *User configuration* tab, scroll down to *Active department* and select the department for the user in the drop down menu.

When finished, scroll to the top of your screen and press 'Update account' to save, and the user account setup is complete.

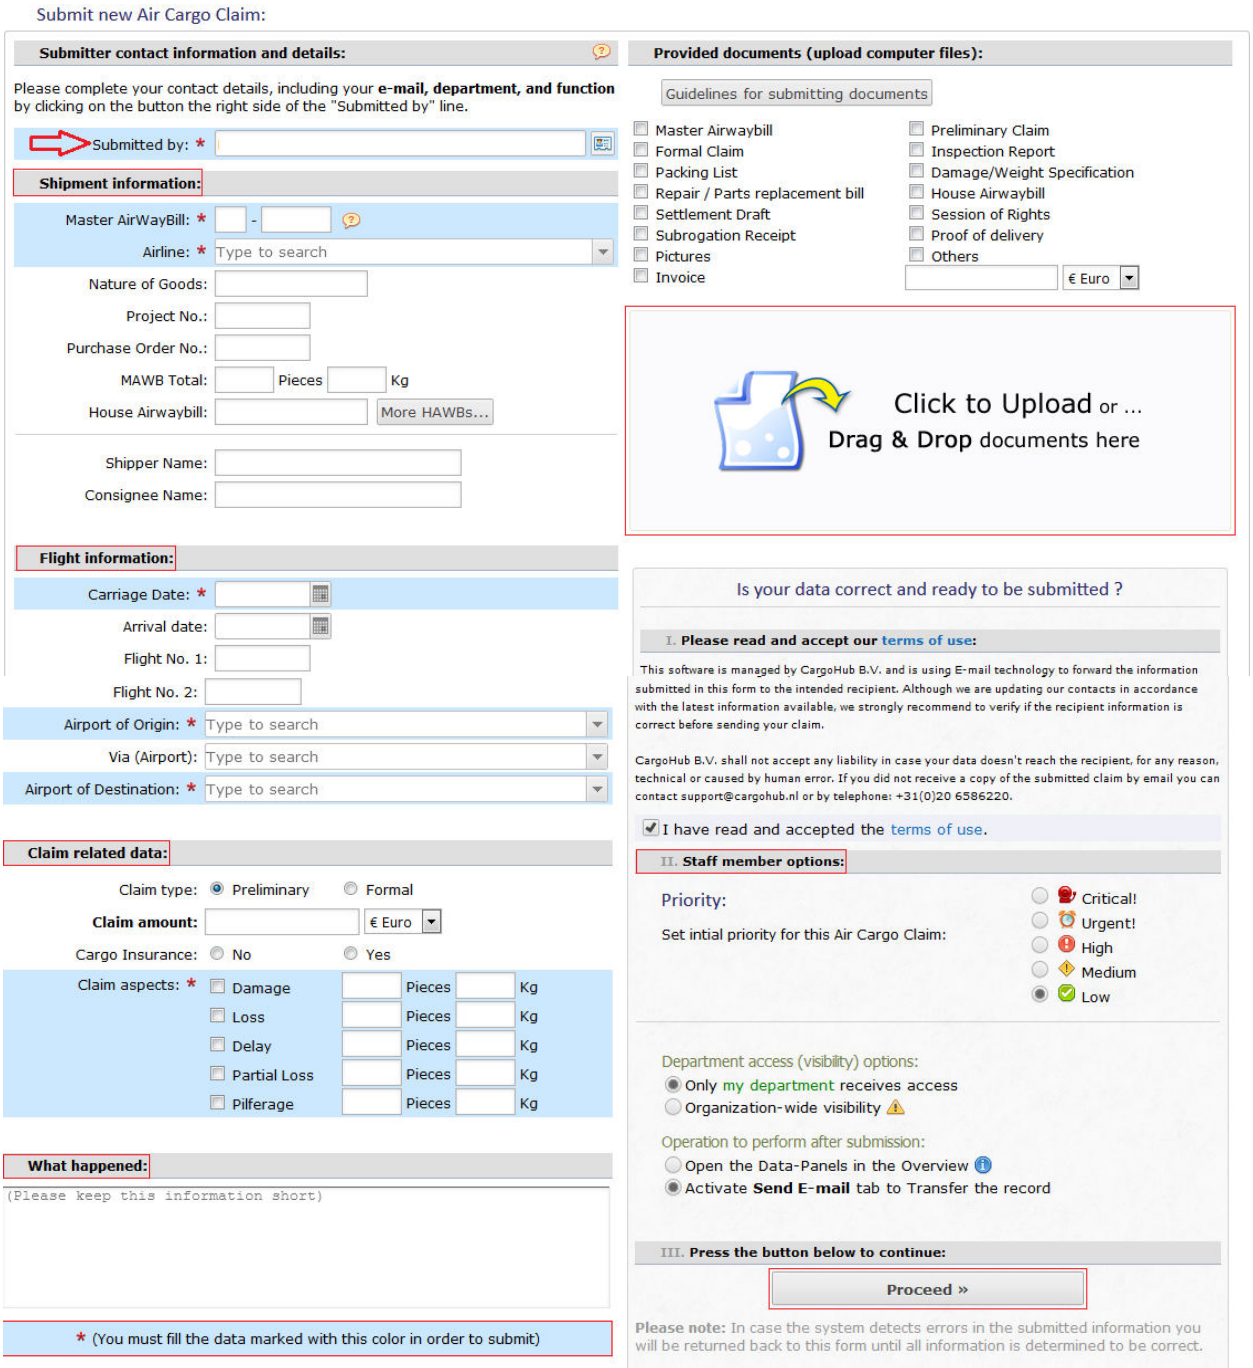

The account is now operational.

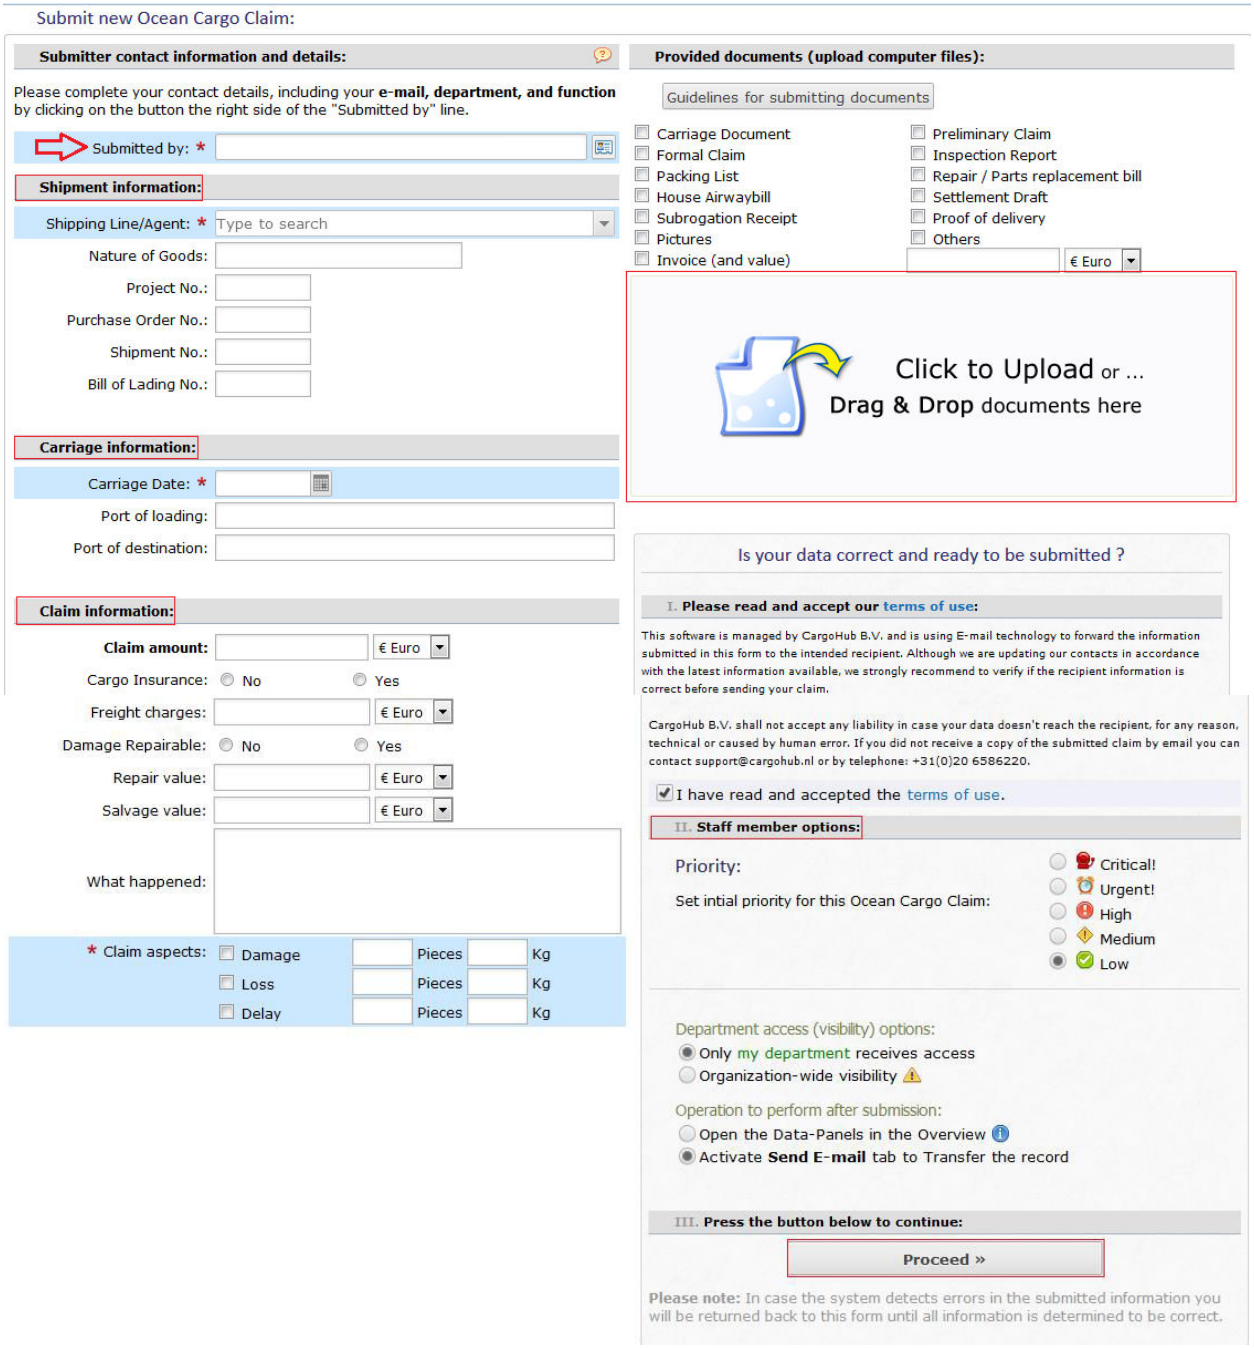

Note: The user will have the same access as others of the same department.

6 Guidelines for submitting documents

Guidelines for submitting documents

Please include the following information when submitting the e-Claim in order prevent any delay in handling your claim. The more information you provide, the more quickly your claim can be handled or settled.

1. PRELIMINARY CLAIM	Enclose the preliminary notice of claim in written !
2. MASTER AIR WAYBILL	Copy of the contract of carriage (Master Airwaybill) and eight digit number assigned to the shipment.
3. CLAIMED AMOUNT	List the damaged or shorted merchandise by item and quantity and provide the amount you would like to be compensated for. Tell exactly what was damaged and how you came to your claimed amount. List how many pounds/ kilograms or what number carton was damaged.
4. FREIGHT CHARGES	In most cases, the freight charges must be paid before a claim is finalized.
5. INSPECTION REPORT	If damage was noted at destination, the agent should have been requested to prepare this report. If an inspection was not done, just state that non was done. An inspection completed by an independent surveyor may also be included.
6. INVOICE	Provide the original vendor's invoice for the damaged merchandise in question. This will indicate the value of the goods claimed.
7. PACKING LIST	This would list the quantity and weight of the items in each box. For personal effects shipments, the value of each item should also be listed.
8. REPAIR OR PARTS REPLACEMENT BILL	If the damaged goods are repairable, provide the receipt for repair.
9. SALVAGE VALUE	It is the shipper / consignee's responsibility to minimize the loss by salvaging goods. Explain what was done with the damaged shipment; for example, was it thrown away, repaired, or sold for discount price.

FREIGHT FORWARDERS AND INSURANCE COMPANIES

In addition to the above please include:

10. HOUSE AIRWAYBILL	Delivery record copy
11. SETTLEMENT DRAFT	Proof of payment to ultimate consignee
12. SUBROGATION RECEIPT	Statement from payee authorizing you to act on behalf of shipper or consignee

Remember that you must retain all damaged material until the claim is completely resolved. In some cases, the carrier will notify you that they intend to pick up the damaged material. If you are not able to provide the material for the carrier, then the claim is denied.

Claim period for damage, delay or loss

Receipt by the person entitled to delivery of the cargo without complaint shall be prima facie evidence that the cargo has been delivered in good condition and in accordance with the contract of carriage.
In the case of loss of, damage or delay to cargo a complaint must be made to the Carrier by the person entitled to delivery.

Based upon the time limits as set forth in the Warsaw Convention as amended at the Hague 1955 and the Montreal Convention 1999, a preliminary claim must be filed shortly after receipt of your shipment.
The time limits reffered to above are:

- **Damage or partial loss**; immediately after discovery and at the latest within 14 days from the date of receipt of the cargo
- **Delay**; within 21 days from the date on which the cargo was placed at the disposal of the person entitled to delivery.
